Hello, my name is Kuba Prendota I'm 18 and I attend III Liceum Ogólnokształcące in Tarnów in southern Poland. I live in Wola Rzędzińska which is situated 6 kilometers away from Tarnów in a detached house. I have to commute every day to my school with a bus or with my Mom who works in the city. I like my city because it's full of entertainment places like cinemas, pubs, restaurants, malls, pools and so on. It's also very clean and well designed and there are traffic jams very rarely.

My favorite genre of music is rock and I love bands of Bon Jovi, Skillet, Aerosmith, The Pretty Reckless, Breaking Benjamin and Sum41. I also like horror movies and my favorite one is Alexandre Aja's "Haute Tension". When I have free time I meet my friends, read books (especially Agatha Christie, John Grisham and Stephen King), ride a bike, and play computer games of which my favorite one is "Tomb Raider".

In future I'd like to get to University in Cracow of AGH, specialisation in geology. I'm very interested in geography and astronomy so I'd like to connect my future with these subjects. I think they are very important for us and can help

people to understand processes ruling the Earth and other planets.

Tarnów was found in XIV century by king of Poland Władysław Łokietek. From 1772 to 1918 Tarnów was occupied by Austria. It's located in the trail between East and West. In XIX and XX century Tarnów was a one of the biggest Jewish center in Poland. Nowadays, it's medium city, with 150 thousandths citizens and a lot of investment in culture, sport and recreation.

My country, Poland is one of the biggest countries in Europe. It has nearly 40 mln people of population. The total area of Poland is 312,679 square kilometres (120,726 sq mi), making it the 69th largest country in the world and the 9th largest in Europe. Poland is bordered by Germany to the west; the Czech Republic and Slovakia to the south; Ukraine, Belarus and Lithuania to the east; and the Baltic Sea and Kaliningrad Oblast, a Russian exclave, to the north.

The establishment of a Polish state is often identified with the adoption of Christianity by its ruler Mieszko I in 966, when the state covered territory similar to that of present-day Poland.

The Commonwealth with Lithuania from 1569 collapsed in 1795, and Poland's territory was partitioned among the Kingdom of Prussia, the Russian Empire, and Austria. Poland regained its independence as the Second Polish Republic in 1918, but two decades later in September 1939 it was occupied by Nazi Germany and the Soviet Union, triggering World War II. Poland lost over six million citizens in the war and emerged several years later within the Soviet sphere of influence as the People's Republic of Poland.

During the Revolutions of 1989, communist rule was overthrown and soon after Poland became what is constitutionally known as the "Third Polish Republic". Poland is a member of the European Union, NATO, the United Nations, the World Trade Organization, and the Organisation for Economic Co-operation and Development (OECD).
